

Multimedia Project the friendship ship

we are going to use (bootstrap 5 , illustrator , adobe after effect or animate ,html,css)

Making responsive 6 pages with a

(navigation bar , welcome screen slider (using bootstrap sliders) , Video, some images , information about the team ,contact form , footer)

we are going to divide the projects into sub-missions

| Mission | responsible |
|--|--|
| 1- Creating the UI/UX of the homepage using adobe xd,figma,... | AMR |
| 2- GITHUB Configurations our GITHUB link https://github.com/amrs12145/the-friendship-ship | AMR |
| 3- Creating the Logo using illustrator maybe a ship  | Write your name please if you want to do it. |
| 4-creating a video using (after effect or animate) | Write your name please if you want to do it. |
| 5-Converting the UI/UX homepage into HTML code | Amr,Zeyad,Mahmoud,Johnny |
| Create your own page Look at number 6  | Amr,Zeyad,Mahmoud,Johnny |

6- each one is responsible to create a portfolio page for himself adding a

1. Navigation bar (same in all pages)
2. welcome screen including your pictures (Customized by you using bootstrap sliders)
3. information about yourself like => Projects you achieved , Courses you want to finish, etc.....
4. Contact Form including your real information (Customized by you)
5. footer (same in all pages)
6. social media links (Customized by you including your real links)
